**Name and description of project:**

Re-Set

The funding of a therapeutic session for our adult mental health programme 'Re-Set' - this could be an art, gardening or animal connections session.

**DECISION:**

**To provide funding of £280.01 to the above project.**

---

**Reason for decision:**

The Romney Resource Centre provides support for some of the most vulnerable young people and their families within our community. Part of the Centre's work includes delivering a Re-Set Programme which seeks to improve mind and body health through understanding, self-awareness, and therapeutic activities. This funding will facilitate the delivery of a bespoke therapeutic session and so will help support individuals dealing with mental anxiety and health concerns in an area where multiple generations of families on Romney Marsh are living with unprocessed trauma and associated mental and physical conditions, resulting from adverse childhood experiences (ACEs).
