'Outreach' is the delivery of a service which does not take place from a dedicated or permanent space. Examples could include using a village hall, community centre or other building on a temporary basis when there is a need for a service. We already deliver some of our services by outreach.

**Q10. If you have any comments you would like to make about delivering services through outreach, please tell us below.**

### Section 3 – Buildings

Our work so far has led us to propose working from fewer permanent buildings, meaning that some of our buildings would close. This is because we need to reduce our costs and reduce our carbon emissions. Using the Needs Framework to design where and how we deliver services means we will be able to meet community needs with fewer permanent buildings.

**Q13. How much do you agree or disagree with the proposal to have fewer buildings?**

*Please select **one** option.*

### The new Family Hubs Model

**As explained in the consultation document, we have recently taken a key decision to accept Transformation Status from the Department for Education which means significant investment will be provided by Government to enable the change to the Family Hub model.**

In a Family Hub, several different organisations and their services work in partnership together. The Government's guidance on Family Hubs suggests the provision that should be linked together to create the 0–19-year-old offer, or 0-25 for those with special education needs or disabilities (such as children's centre services, youth services and Public Health provision such as Health Visiting). However, our proposals about where to locate Family Hubs, where to provide outreach, and where to co-locate with other KCC services have been informed by the Needs Framework we have developed.

**Q15. What do you think is important for us to consider when we transition to the Family Hub model?**

### Section 5 – Equality Analysis

To help ensure that we are meeting our obligations under the Equality Act 2010 we have prepared a set of Equality Impact Assessments (EqIAs) on the proposals.

An EqIA is a tool to assess the impact any proposals would have on the protected characteristics: age, disability, sex, gender identity, sexual orientation, race, religion or belief, and carer's responsibilities. The EqIAs are available online at [www.kent.gov.uk/communityservicesconsultation](http://www.kent.gov.uk/communityservicesconsultation) or on request.

**Q20. We welcome your views on our equality analysis and if you think there is anything we should consider relating to equality and diversity. Please add any comments below.**

Last updated: 30 December 2021

#### Who are we?

We, Kent County Council (KCC), take our privacy obligations seriously and we've created this privacy policy to explain how we treat your personal information collected in this questionnaire. Personal information is information we hold which is identifiable as being about you.

Our collection, use and disclosure of your personal information is regulated under the United Kingdom Data Protection Regulation and the Data Protection Act 2018. We are responsible as 'controller' of that personal information for the purposes of those laws. Our Data Protection Officer is Benjamin Watts.

#### The personal information we collect and use

##### Information collected by us

In the course of responding to consultations published by Kent County Council we collect the following personal information when you provide it to us:

- responses to questionnaire / consultation
- equalities data collected through questionnaire response - age, sex, gender identity, ethnicity, religion or belief, sexuality, disability, pregnancy or maternity or if you are a Carer
- employment and education details
- postcode.

We ask you not to provide information that will identify you in your response in this questionnaire.

You do not need to submit any equalities or postcode information if you do not want to. KCC is committed to the principle that all our customers have the right to equality and fairness in the way they are treated and in the services that they receive. Any information you do give will be

used to see if there are any differences in views for different groups of people, and to check if services are being delivered in a fair and reasonable way.

We will not ask you to provide your name, email or full home address. If you provide this information, it will not be entered into spreadsheets or databases used to process response data and will not be used in producing reports. We will follow our Data Protection policies to keep your information secure and confidential. Your equality data will be anonymised before it is shared with external organisations who have been commissioned on individual projects to undertake analysis and reporting on our engagement and consultation activities.

#### How we use your personal information

We collect and use this information in order to:

- understand your views about a particular topic or KCC activity
- analyse consultation and engagement activity
- inform KCC's future strategy, policy, service design and budget planning
- undertake equality monitoring.

We may use your postcode to analyse the geographical spread of responses and in some cases to understand in more detail how responses are impacted by location. We will only ask you for the first five characters of your postcode to avoid being able to identify specific households in less populated areas.

We may use your postcode to carry out a type of profiling to estimate which one of a number of lifestyle groups you are most likely to fall into. We do this using geodemographic segmentation tools. We do not make any decisions about individual service users based solely on automated processing, including profiling.

#### How long your personal data will be kept

We will hold any personal information provided by you in this questionnaire for up to six years following the closure of a consultation. Our Retention Policy is available from our website or on request.
