- 2. To approve the recommended grant applications to the Rural England Prosperity Fund Grant Scheme as summarised this report.**

1. INTRODUCTION

- 1.1. Funding for the Rural England Prosperity Fund grant scheme has been provided by UK central Government as part of the Department of Levelling Up Housing and Communities UK Shared Prosperity Fund. The scheme was opened to applications during October 2023.

2. RURAL ENGLAND PROSPERITY FUND GRANT SCHEME

- 2.1. The Rural England Prosperity Fund Grant Scheme is set up to support specific activities that address specific challenges faced in rural areas. These include lower productivity rates, poorer connectivity rates and poorer access to key areas. This sits within the UK Shared Prosperity Fund investment priorities for supporting local business and supporting community and place.
- 2.2. The Rural England Prosperity Fund Grant Scheme provides non-repayable grants up to a maximum of £30,000.
- 2.3. Grants awarded can cover up to 75% of a total project cost for businesses, and up to 90% of a total project cost for charities or community groups. The remaining sum will come from the company's own resources, including bank loans, or other suitable grant schemes if applicable.
- 2.4. Applications are only eligible to apply for funding if their proposed project will take place in a location classed as rural. This is confirmed by using DEFRA's Magic Map website.
- 2.5. The grant scheme was launched in October 2023 and grant applications will be accepted at any time until the closure of the scheme. The scheme is expected to run until either 31st March 2025 or until funds have been allocated.
- 2.6. Applications received are assessed in the first instance by the Economic Development Team. Final decisions on individual applications are made by the Leader of the Council, in collaboration with the Lead Cabinet Member of the District Economy, Lead Cabinet Member for the Environment, and a ward member determined by the location or proposed location of the business.
