

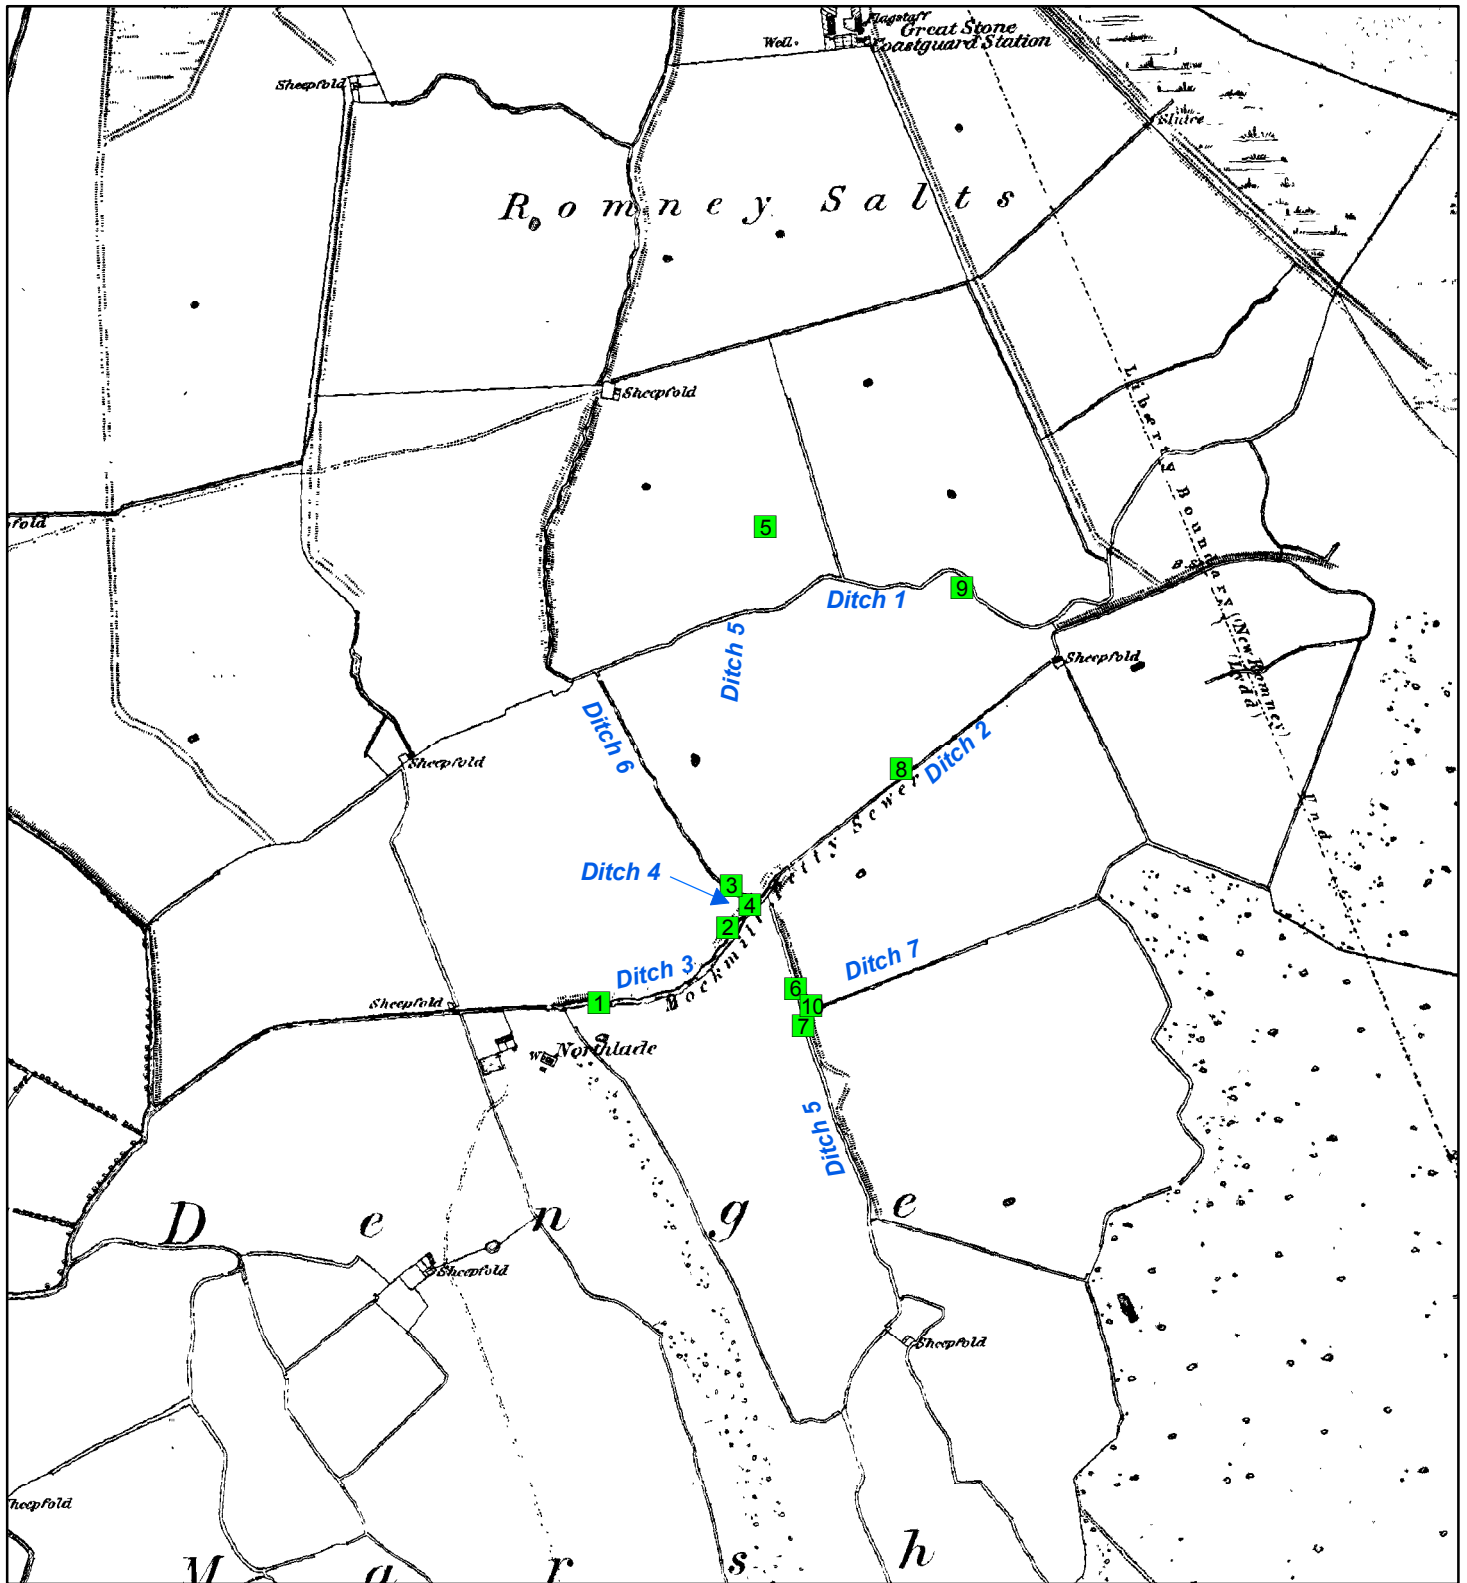

Figure 2a - Historical context of application ditches - ditch numbering overlain on first OS County Series Maps (1843 - 1893)

Legend

- Invertebrate Sample Locations Note - there is some uncertainty over sample locations as some grid references provided were missing a digit - see also note below about ditch numbers.

Ditch 1 Ditch Numbers - ditch numbering follows that described by applicant's invertebrate survey (CD1.33a). Other information is from the applicant's surface water drainage strategy (CD1.52a). There is some uncertainty over ditch numbering as the applicant's invertebrate survey did not provide a map and locations have been inferred from the grid references provided, some of which were missing a digit.

Scale 1:10,000
