Dear Mr Ellames

**LONDON ASHFORD AIRPORT (LYDD) SUPPLEMENTARY INFORMATION
FOR PLANNING APPLICATIONS Y06/1647/SH AND Y06/1648/SH**

On behalf of our client, London Ashford Airport Limited (Lydd) ("LAA"), we are pleased to submit Supplementary Information for the current Planning Applications, runway extension (reference Y06/1648/SH) and new terminal building (reference Y06/1647/SH) at LAA.

This Supplementary Information is submitted to clarify issues raised during the public consultation to the Supplementary Information and Supplementary Environmental Information submitted to Shepway District Council ("SDC") in August 2008.

LAA considers the following documents to be the final points of clarification and anticipates that SDC has now received all necessary information in order to determine these applications.

This submission comprises 8 hardcopies and 10 CDs containing the following documents:

Volume 1: Overview of Applications and Supporting Materials

- Overview and Inspection of Documents.
- Brief Summary of Planning Applications.
- Updated List of Key Planning Application Documents and Supporting Material.
- Overview of Key Assumptions in the Environmental Statements.
- Some Key Material Considerations in Determining Applications Y06/1647/SH and Y06/1648/SH.
- Revised Updated Schedule of Mitigation Measures.
- Glossary.

Volume 2: Non Technical Summary

- Non Technical Summary.

Volume 3: Supplementary Information

- Appendix 1: Socio-Economic Update 2009 (Runway Extension and Terminal

- Building).
- Appendix 2: Aircraft Crash Risk to Dungeness Nuclear Power Stations (Runway Extension and Terminal Building).

Volume 4: Supplementary Information

- Appendix 3: Community Noise Assessment (Runway Extension).
- Appendix 4: Community Noise Assessment (Terminal Building).

Volume 5: Supplementary Information

- Appendix 5: Surface Water Drainage Strategy (Runway Extension).
- Appendix 6: Proposed Foul Water Solutions (Terminal Building).

For clarity, section 3 of Volume 1 of this submission, Overview of Applications and Supporting Materials, includes two tables. The two tables list the documents that have been formally submitted to SDC in 2006, 2007, 2008 and 2009 in respect of applications Y06/1647/SH and Y06/1648/SH. .

Indigo Planning will co-ordinate the direct issue of documents (hard copy and/or electronic) to a range of statutory and key consultees as previously agreed.

We trust that this final submission of Supplementary Information is sufficient to enable SDC to determine applications Y06/1647/SH and Y06/1648/SH and make its Appropriate Assessment.

If you have any queries in relation to this information, please contact me or my colleague Eilish Loftus.

Yours sincerely

Sean McGrath

Enc: 8 copies of Supplementary Information (Volumes 1 to 5) and 10 CDs;
