Alistair

1. Seems a well balanced team and with your leadership will deliver. Will likely need a admin/project support role. Ideally someone who understands projects and the associated methodology. See this slight more than a PA role, especially due to the political dimension and the link with DECC and OND.
2. Beyond this point I think you will need a senior Ambassador/programme director to ensure the project delivers and be the focal point for the communities. My thoughts are that it is unlikely we have the resources internally and will need to go to the market.
3. The only other issue is that of political leadership from a project perspective.
4. Exciting times ahead and potentially a landmark event for the Marsh.

Regards
Mark

Subject: CONFIDENTIAL - Dungeness Project

I have started to create the team that would run the project up to expression of interest:

- Graham Harris – project lead
- Dave Illsley – community knowledge
- Owain East – PR
- Ben Geering – planning

I have discussed with Graham who else might be involved & we might look to add a junior engineer & an administrator. Each of those named have been approached & are happy to be involved. Obviously, as the project progresses the team will morph with the project.

Views on the team would be welcomed.
